

The new standard in light

Master Controller

TECHNICAL SPECIFICATIONS

Control voltage outputs: 2 Groups. A/B

Numbers of ballasts per output: 100 pcs Max

Max cable length per group: 100 meters

Over heat protection: YES

Sunrise/sunset period: YES

Input voltage DC5V2000mA

Weight: 1.0 kg

Warranty: 3 years

Master controller is available to control two lighting groups in a greenhouse. Output 0-11.5V adjustable DC voltage to control ballast output power or switch on/off the ballast. The controller operates on a 24-hour time cycle.

The controllers also has the ability to stimulate sunrise and sunset cycle from 10-60 minutes. Each of the two-lighting groep channels has a room overheat protection function that can be set as needed. You can use the LCD touchscreen to view and modify the current settings for each channel easily. Moreover, the controller is portable, easy installed and operated."
